

Royal Burgers' Zoo is one of the largest zoos in Europe where the welfare of the animals comes first and our visitors are important. We see it as our mission to protect and preserve (endangered) animal species. It is not just about giving our visitors a fun day out, but also about teaching them something about the beauty of nature. Nature and the experience of nature are essential for the well-being of people. Burgers' Zoo wants people to experience the wonderful world of nature as much as possible in order to inspire them and let them enjoy together everything that nature gives us.

Royal Burgers' Zoo is a real family business where involvement is of paramount importance. Would you like to join our team? We are currently looking for an:

Aquarist/Animal Keeper Ocean

(38 hours contract)

In this position you can get stuck into:

- the daily care of animals in aquariums and quarantine. You have an eye for the safety of people and animals;
- food preparation and feeding;
- observe and interpret animal behaviour and recordkeeping;
- maintenance and cleaning of aquariums, technical rooms and installations;
- breeding corals and fish;
- diving in various aquariums;
- measuring water quality and adjusting filters.

We are looking for:

- has completed MBO+ training in an animal-related field, a diving license is an advantage;
- has comprehensive understanding of aquatic husbandry (at least 5-10 years) with aquariums and their inhabitants;
- has experience in the operation and maintenance of LSS systems;
- are analytical and can respond to changes in the field;
- are willing to work varying shifts from Monday to Sunday, we are open 365 days a year;
- can work independently as well as in a team and have a proactive attitude;
- are accurate, structured, flexible and social;
- SCUBA certification is a pre, but not a must;
- excellent written and verbal communication skills in Dutch or English, if not native speaking Dutch we expect your to learn the Dutch language.

What you will find with us:

- a challenging and varied position in a unique working environment;
- employment conditions in accordance with the Zoo collective labour agreement (Dierentuin CAO);
- an enthusiastic and driven team.

A professional medical scuba diving examination is part of the application procedure. It is a requirement that you be fully approved before being considered for this position.

Can't you wait to get into this great job? Send your motivation and CV before May 12 to soliciteren@burgerszoo.nl. We will publish this vacancy internally and externally at the same time.
